CC ENERGY DEVELOPMENT S.A.L (Oman Branch)

11th February 2015

New Vendor Registration Process

Dear Vendor,

As part of CC Energy Development compliance to the ongoing commitment of ICV delivery and as a key element of the Ministry of Oil and Gas ICV Strategy, we would like to bring to your attention that CCED is supporting the Joint Supplier Registration System (JSRS). As most of you are aware of the development and implementation of the JSRS we are requesting all Vendors to complete their registration on the JSRS which includes further registration of the JSRS tier-2.

We would like to highlight that this registration is a policy requirement of the Ministry of Oil & Gas (MOG) and that all oil and gas Operators in Oman are required to use the JSRS as the only approved vendor registration database.

All Operators will officially use the JSRS as the only registry and the Cut-off Date is set to 15February2015, after which Operators will cease to use their own vendor databases. If you have not already registered with JSRS tier-2, please ensure that you do so, as soon as possible, to avoid any disruption to your approved registration and thus your ability to work with any of the Operators post the Cut-Off Date.

The MOG Master Vendor Registry we are currently using will therefore expire at the Cut-off Date and only JSRS tier-2 registered suppliers will be considered.

Please do not delay registering with JSRS as this may affect your ability to work with CCED after the Cut-off Date.

Should you have any questions relating to your JSRS Registration, please contact Business Gateways International (BGI), which is the local company operating the JSRS, at the below contact details.

Registration details are at: <https://businessgateways.com/jsrs>
